HYDRAULIC LIFTER

500 Kgs. to 5000 Kgs.

HSPLTM

OBJECTIVE:

Hetal Systems offers Hydraulic Lifter & Drum Discharger that are ruggedly constructed to cope with laborious lifting, loading and machine feeding duties to get increased productivity and handling efficiency.

PURPOSE

The purpose of Hydraulic Lifters & Drum Dischargers is to provide facility of charging material at

a special condition like very limited space, furnace area, quality maintenance, very precise input of material.

Lifting the material with conventional methods like Crane, hoist etc. is an old practice. The professional industrial management is to have better system with best economy.

You can lift your product, raw material for second operation with much more facility and human easiness.

TECHNICAL SPECIFICATIONS

CAPACITY : 500 Kgs. to 5000 Kgs.

LIFT HEIGHT : Upto 2 meters.

WORKING TABLE : As per your requirement.

FLOOR SPACE : Bare Minimum.

MOTOR : Special Duty.

POWER PACK : 'YUKEN' or 'DOWTY' Accessories.

CONTROL PANEL : L & T / SIEMENS, Electrical Controls.

HYDRAULIC :

CYLINDER : Std. make according to load design.

HYDRAULIC :

PIPING : Seamless.

SPECIFIC FEATURES

- 20% overload tested.
- No civil foundation required.
- Mechanical as well as electrical stopper while loading & unloading.
- Sensitive release knob for locking in any position.
- Robust Construction.
- Ergonomical Design.

BASED ON ITALIAN DESIGN

THE UNIVERSAL AUTOMATIC DRUM - DISCHARGER

25 LITRES TO 200 LITRES.

EMPTIES DRUM TO ALL HEIGHT
REGULABLE TIME OF DRIPPING
FOR ALL TYPE OF DRUMS AVAILABLE
IN THREE MODELS

- 50 Litres Capacity.
- 100 Litres Capacity.
- 200 Litres Capacity.
- **Higher Capacity Offered on Request.**

SUITABLE FOR:

- Food Processing
- Chemical
- Pharmaceutical
- Dyes Industries

WORKING PRINCIPLE

It is working basically on mechanical drive through electrical motor, the cradle -

which carries the container (bin, drum, skid) for unloading at desired place or in mixing tank whenever needed to empty without any spillage or accident.

Drive lifts the drum and automatically tilts it to required position. There is auto-stop by way of limit switch control for maximum and minimum position. You can stop the lifter at any desired position. In case of power failure the safety brake keeps Cradle in position without moving upper or lower position.

SPECIAL FEATURES

- 135 Degree tilting.
- Easy Locking.
- Safety brakeAuto Lift.
- 440 Volts Supply.
- Standard Electricals.
- Easy to handle.
- Container upto 700 MM DIA.
- Stationary / Movable.

For ordering please write:

- (1) Capacity & Size of Drum.
- (2) Height for emptying.
- (3) Overall height available.
- (4) Material of Construction.
